

## Activity Book

Name .....

**Choose your favourite lines from the text and write them in the shapes:**

*For example, you might choose 'sunlight through emerald leaves or 'an orchestra of birdsong'*

When you have chosen about six lines try arranging them in different ways to make a poem.

Write your poem on the next page.

## Advice helpline

Talk to the characters

*If you could talk to the soldier, the king, one of the princesses and the woman in the forest what would you say to them?*

## Do the maths

If each of the twelve princesses wears out a pair of slippers each night, how many pairs of shoes does the King need to buy per week?

*How will you work it out? You could draw pictures of the shoes to help you or write your calculations here:*

*You might want to try the number per month as well*

*You could also try working out a bill! If the slippers cost £10 a pair how much will that cost the king per week, or month?*

## **Write an advert for extra strong dancing slippers**

Think about your slipper design, what they are made from, the colour and style choices and how much they might cost. Can you persuade the king to buy them?

*Draw your design with information here:*
