

Make a Gaspard the Fox Mask

Use a paper plate or draw around a small plate onto card. Cut out the circle. Draw arcs either side of the 'nose' to create a pointy face and one to flatten the top of the head. Cut out two ear shapes to stick on – you could add a tear in one ear so your mask is more like Gaspard. Draw and cut out two eye shapes. Although you may need to do a lot of this your child can decorate the mask adding a nose and mouth and orange paint, crayon or felt tip fur. Look at the illustrations in the book to help you.
